

Saxophone mouthpieces

Alto-Tenor

JAVA ebonite mouthpieces are suited to jazz, soul and funk. Similar in sound concept to a metal mouthpiece, with the comfortable feel of ebonite.

		CODE	COMMENTS
Alto	A35	SM501B	The jazz mouthpiece, with a rich and colorful sound.
	A45	SM502B	An intermediary tip opening between the V16 series A8 and A9 mouthpieces with the JAVA sound.
	A55	SM503B	The standard model in this category.
	A75	SM504B	An open mouthpiece, designed to use soft reeds.
Tenor	T45	SM511B	A mouthpiece equally suited for jazz and classical playing.
	T55	SM512B	A comfortable mouthpiece with the tip opening of the V16 series T6.
	T75	SM513B	An intermediate tip opening; the most popular JAVA tenor choice.
	T95	SM514B	A generous, rich and centered sound.
